ABOUT FOSSASIA PGDAY 2027

FOSSASIA PGDay is an annual event co-located with the FOSSASIA Summit. Previous editions were hosted in **Singapore, Vietnam, Thailand, and Indonesia**. Dedicated to PostgreSQL and its ecosystem, it offers a focused forum to exchange know-how and to showcase **PostgreSQL** as a scalable, secure, and cost-effective data platform.

The 2027 edition will bring together around 200 database administrators, developers, IT managers, and PostgreSQL enthusiasts to engage with the latest advancements in PostgreSQL technology and practice.

We are seeking sponsors to help bring PGDay 2027 to life—partners who value a thriving PostgreSQL ecosystem and its growth. Your support funds the program (content, recordings, logistics and community grants), strengthens regional collaboration, and advances PostgreSQL adoption.

HOST CITY AND VENUE

This will be the second time PGDay is hosted in Bangkok. The city offers easy and affordable access for participants from across the region, supported by its vibrant tech ecosystem and active open source communities.

TRUE DIGITAL PARK

The event will take place at True Digital Park, one of Bangkok's premier venues with state-of-the-art facilities. It is also Southeast Asia's largest startup hub, home to over 220 tech startups.
